*Insect Repellent You'll Love to Wear...*

## Introducing Insect Shield® technology treated BabyLegs® BabyNoBugs™ Arm & Leg Warmers

### What is BabyNoBugs™?

BabyNoBugs™ is our NEW innovative line of arm and leg warmers that are specially treated with Insect Shield® technology, resulting in effective, odorless insect protection that lasts the expected lifetime of a BabyLegs® warmer. The repellency in these one-of-a-kind warmers protect by staying on the product, not on the skin.

This patent-pending technology for apparel repels harmful insects such as mosquitoes, fleas, ticks, and many more! The collection will consist of a variety of cute, colorful, and fashionable bug-inspired designs.

### Who can wear Insect Shield® BabyNoBugs™?

Everyone in your family can wear Insect Shield® BabyNoBugs™ arm and leg warmers!

The following agencies recommend permethrin treated apparel: The World Health Organization (WHO), [www.who.int](http://www.who.int), US Centers for Disease Control and Prevention (CDC) [www.cdc.gov/travel](http://www.cdc.gov/travel), The American Academy of Family Physicians, <http://www.familydoctor.org>

### Which insects does Insect Shield® treated BabyNoBugs™ repel?

Insect Shield® Repellent BabyNoBugs™ has been registered to repel mosquitoes, ticks, ants, flies, chiggers, and midges (no-see-ums). The EPA requires extensive effectiveness data to prove a product's ability to repel insects. Many species and varieties of these insects have been tested, including those that can carry dangerous diseases.

### Insect Shield® treated BabyNoBugs™ -Tested and Proven

This fabric application results from years of intensive research and field study. Numerous studies have confirmed the effectiveness of permethrin-treated clothing as an insect repellent. The testing methods follow United States Department of Agriculture (USDA) guidelines, and the results conclusively show that our unique, long-lasting insect protection works.

### Insect Shield® treated BabyNoBugs™ is Durable!

The repellency of Insect Shield® apparel is EPA-registered to last through 70 launderings—the expected lifetime of a garment. Normal home laundering is recommended—Do Not Dry Clean.
